CAMERA REQUIREMENTS
For PHOTOGRAPHY CLASS

Welcome to Photo! You will need a 35mm SLR camera for this class. I would recommend asking a relative or friend to borrow theirs for the semester. BE SURE IT WORKS BEFORE you bring it to school. It may simply need a new battery. Cord camera generally has a knowledgeable staff willing to help you. **I would not recommend buying a new one** unless you absolutely have to. If you do, go to Cord camera, a pawn shop, flea-market, craigslist, ebay, etc…I just did a quick search and found one for $29. Again, be sure it works before you buy it.

**Requirements for camera for Photo class:**
- 35mm SLR Camera
- Adjustable Aperture/Adjustable Shutter Speed (“B” setting preferable but not mandatory)
- Light Meter
- If automatic, it must have a manual setting
- ANY BRAND is fine.

You will also need a digital camera. A DSLR is NOT required. They may be used for the class but please understand the risks of bringing them to school.

**You will need both of them the first week of class.**
All of your equipment will be stored in your locker.

Sorry, no cameras, no class.
